EDUCATION

SRM Institute of Science and Technology, Kattankulathur, Tamil Nadu Masters in Computer Applications (MCA)	2027
Vivekananda Institute of Professional Studies, New Delhi, GGSIPU Bachelors in Computer Applications (BCA)	2023

SKILLS & CERTIFICATIONS

Programming & Data Management: Python (Pandas, NumPy, Matplotlib, Seaborn, Flask, JAVA, HTML5, CSS5, Bootstrap, JavaScript, MySQL)

Analytics & Visualization: Tableau, Microsoft Power BI

Other: MS Excel (Advanced Excel, Pivot Tables, Power Query), MS PowerPoint

Certifications: The Complete 2022 Web Development Bootcamp, Data Analytics Job Simulation from Deloitte, Cyber Job Simulation from Deloitte, AICTE Data Engineering by AWS, AICTE Google AI-ML

WORK EXPERIENCE

Product Analyst, Amply (Google Accelerator '23) July'23- July'24

- Developed and digitized SOPs, checklists, and process manuals, creating customized PDF documentation and company audit files aligned with client and business requirements.
- Managed client requirements and issue resolution, collaborating with founders to improve service delivery and ensure client satisfaction.
- Automated platform testing using Python and Selenium, developing test scripts to validate functionality, identify issues, and improve testing efficiency.
- Developed and optimized websites using HTML, CSS, JavaScript, and WordPress, while creating SEO-focused content and analyzing performance to improve online visibility and traffic.
- Analyzed HTTP hit and platform usage data to identify trends, generate actionable insights, and support platform performance optimization.

PROJECTS

ReckMe – Job Recruitment & Applicant Tracking Platform

- Developed ReckMe, a role-based recruitment platform connecting users, recruiters, and admins.
- Enabled users to search, filter, and apply for jobs, while recruiters manage job postings and applications.
- Implemented ATS-based scoring to match user skills with job requirements and streamline candidate tracking.
- Built using Next.js, React, TypeScript, Prisma, SQLite, JWT, bcrypt, Tailwind CSS, Valibot, and Nuqs.

Movie Recommendation System with Sentiment Analysis

- Developed a movie recommendation web application with sentiment analysis on user reviews using Python and Scikit-learn.
- Preprocessed and analyzed movie and review datasets using Pandas and Seaborn, implementing machine learning models for sentiment classification and recommendations.
- Built the web application using Flask, HTML, CSS, Bootstrap, and JavaScript, integrating the recommendation and sentiment analysis models.

POSITIONS OF RESPONSIBILITY

Coordinator, Institution's Innovation Council, Ministry of Human Resource Development July'21 -July'23

- Spearheaded a 4-member team to manage and moderate the Institution's Innovation Council's social media presence across Facebook, Twitter, Instagram, and YouTube, driving consistent engagement and visibility.

EXTRA-CURRICULAR ACTIVITIES

Research Paper, National Conference, Visualizing and Sensitizing Innovations Technology 2020-2021

- Presented research paper entitled "Artificial Intelligence Supremacy in Cyber World" in the AICTE sponsored National Conference
